

Dear Partner,

You may already be aware that online FPCM portfolio reports are currently unable via our website.

We are in the final stages of a year-long process to implement and launch a new client portfolio management & reporting system. Our new system will enhance your client experience, by giving you more customized reporting options, mobile access, and the ability for you and us to securely upload and transfer files, as well as other capabilities. .

Unfortunately, our legacy service provider for online reporting has just phased out the platform that we have been using to post our reports on the web, thus preventing us from posting new reports on our website.

We are accelerating the deployment of our new system which will resolve the problems over the next few weeks. In the meantime, you can still access daily reports via our link to **Fidelity.com**.

In addition, during this final transition period, if you wish to receive any FPCM portfolio reports, please contact us via email at [contact@fpcm.net](mailto:contact@fpcm.net), or call 646-277-7310 and we will provide the requested reports on demand

We apologize for this inconvenience and will follow up with any information. .

Sincerely,

Financial Partners Capital Management
